

Website Emissions Audit

Date: 18/09/23

Website Address: www.omniplans.ch

Status Code Legend

- Within limit: Under 1 gram of CO₂e per page view
- Over the limit: Over 1 gram of CO₂e per page view

Home page	● 0.29 grams of CO ₂ e per page view
/about-us	● 0.24 grams of CO ₂ e per page view
/contact	● 0.25 grams of CO ₂ e per page view
/private-policy	● 0.23 grams of CO ₂ e per page view
/projects	● 0.16 grams of CO ₂ e per page view
/services	● 0.23 grams of CO ₂ e per page view

Findings Summary

Average carbon per page of the website:	● 0.23 grams of CO ₂ e per page view
Summary:	An average web page of the website emits less than 1 gram of CO ₂ e based on 06 pages audited. The website is green hosted.
Overall Status:	Low-Carbon

This initial audit covers a representative and reasonable cross-section of the website. If you opt for the website accreditation, quarterly audits of the website will be conducted to ensure ongoing compliance with the eco standard, and the audit scope may be expanded to identify more carbon reduction opportunities. The calculation of websites' carbon emissions is based on a standardised methodology. The Scientific Advisory Board reviews the recommended limit periodically and it may be lowered in the future. You can learn more about our process [here](#).

Recommendations

Website at www.omniplans.ch qualifies for the Climate-Positive Website Accreditation. Websites that are green-hosted, averages under one gram of carbon per page, and take accountability for the carbon footprint annually, are eligible for this award. This will lead to a more responsible and climate-positive website, achieving below-zero emissions. The accreditation is offered as an optional service. Find out more [here](#).
